

## DESIGN ENGINEER

- **ASX Listed Group**
- **International Concern**
- **\$80,000-90,000 plus super**

Listed on the ASX and with operations in the US, Continental Europe and Australia this company is at the forefront of technological advancements and developments in its sector. The company has a corporate strategy in place which has witnessed strong organic growth which will be supplemented by targeted acquisitions.

Key to their continued development is a new production facility which is set to be commissioned early in 2008.

Based at the Melbourne Head Office this role will report to the Project Manager but will involve regular interaction with the CEO, Chairman and other members of the Senior Management Team.

This role will work closely with local engineering consultancies both internationally and domestically, liaising with the technology supplier from design to construction phase. The role will also involve managing the timelines of various projects and ensuring momentum is maintained. The role will also play a part in feasibility studies in other projected developments in Australia.

Candidates will have 3-5 years experience and a background gained within the Oil, Food, Chemical, Brewing or Fuel Industries would be looked upon as favourable but is by no means prerequisite. Strong communication and interpersonal skills and the ambition to advance to Senior Project Engineer or Project Manager are essential.

This is an outstanding opportunity to join a company that is rightly regarded as one of the most innovative and progressive in its field.
