GROUP COMPLIANCE MANAGER

- ASX Listed Business
- Circa \$100,000 plus benefits
- Outstanding Development Opportunity

In a little under 25 years this business has become the market leader in its field. From humble origins it listed on the ASX in late 2000. The organisation has consistently taken advantage of new commercial opportunities which have included mergers and acquisitions. Recent strategic initiatives have seen the company become one of the few truly integrated organisations operating in its sector.

The key to their success to date has been a talented and innovative management team and an ability to anticipate change in their main areas of operation.

This newly created role has therefore materialised at an exciting time. Reporting to the Financial Controller the duties will be varied and wide ranging but will certainly include the following

- Ensuring that Product Disclosure Statement and Information Memorandum are current and up to date with the relevant legislation
- Ensure that all Taxation Rulings are current and adhered to
- Ensure all FSR License Lodgments are completed and compliant
- Implement and manage a corporate compliance calendar for all facets of the business
- Project manage and report on Risk Management Issues
- Management of the ongoing Quality Accreditation

The role will involve significant liaison with and presentation to the Senior Executives of the Board and hence highly developed interpersonal skills are going to be essential. The ability to multitask and prioritise effectively are critical to the success of this position. The organisation is characterised by a 'can do' attitude and is no place for primadonna's. This is an outstanding opportunity to join a highly motivated and successful business. Promotional prospects are excellent.

Candidates will ideally have a legal background and will presently working either in a similar capacity or be acting in an 'In House' role.
