

PRODUCT RESEARCH AND ANALYSIS MANAGER

- **ASX Listed Financial Services Group**
- **\$130-160,000 + super + bens**
- **Highly Visible Role**

Established in Melbourne in the late 1970's this company has emerged as one of the most highly respected and regarded in its field. The company's growth has been a result of a talented and innovative management team combined with focussed organic growth and a shrewd policy of acquisitions. The company is now about to embark on the next phase of its development with a clear strategy in place.

This role therefore materialises at an interesting time in the Group's development. As to be expected of a role such as this, the responsibilities will be wide ranging and diverse. Specific responsibilities will include;

- Development, design, coordination and management of new MIS products and documentation from inception to market
- Liaison with the Group's tax and legal advisors to ensure ATO Product Ruling is obtained
- Conduct research into the opportunities available for future product development
- Liaise with the CFO re the Profit and Cashflow implications of the new products

Candidates will need to possess well developed written and verbal skills, strong project management abilities and have strong financial and analytical skills. A background in a financial services products environment and some knowledge of the Management Investments Market would prove particularly beneficial.

This is an exceptional opportunity to be part of a successful, ethical and highly regarded business and as such career prospects are outstanding.
